NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificate money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000. and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year.

Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

REMARKS

The figures of births and deaths shown in this statement for week ending the 20th October, 1951, relate to 130 towns with an estimated population of 15,640 thousands. The total number of towns is 254 and their population is 31,142 thousands. Thus 51% of the total number of towns representing 50% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,426 and 5,710 representing birth and death rates of 48.0 and 19.0 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 110 towns with an estimated population of 12,755 thousands. Information about Assam, Bihar, Bombay, Madhya Pradesh & West Bengal could not be included. The total number of towns is 219 and their population is 26,799 thousands. Thus 50% of the total number of towns representing 48%

of the total population is covered. The number of births and deaths recorded in these towns were 12,446 and 50,54 representing birth and death rates of 50.7 and 20.6 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 20 towns with an estimated population of 2,885 thousands. The total number of towns is 35 and their population is 4,343 thousands. Thus 57% of the total number of towns representing 66% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,980 and 656 representing birth and death rates of 35.7 and 11.8 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.

† Figures not available.

Explanation of symbols used:—B.=Births; B.R.=Birth Rate; C.=Cholera; S.=Smallpox; P.=Plague; F.=Fever; D.D.=Dysentery and Diarrhoea; R.D.=Respiratory Diseases; M.D.=Maternal Deaths; D.D.=Death Rates I.D.=Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in the statement for week ending the 27th Oct. 1951, relate to 159 towns with an estimated population of 20,695 thousands. The total number of towns is 254 and their population is 31,142 thousands. Thus 63% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 15,510 and 6,984 representing birth and death rates of 39.0 and 17.5 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 137 towns with an estimated population of 17,413 thousands. Information about Assam, Bihar, and Bombay could not be included. The total number of towns is 219 and their population is 26,799 thousands. Thus 63% of the total number of towns representing 65% of the total population is covered. The number of births and deaths

recorded in these towns were 13,335 and 6,289 representing birth and death rates of 40.7 and 18.8 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 22 towns with an estimated population of 3,282 thousands. The total number of towns is 35 and their population is 4,343 thousands. Thus 63% of the total number of towns representing 76% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,875 and 695 representing birth and death rates of 29.7 and 11.0 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
